Not only are our litigators licensed to appear before the local UAE Courts, we are also honoured to have on our staff a retired senior judge who has served an impressive thirty years behind the bench. We take pride that several of our lawyers are recognized arbitrators who have acted as sole arbitrators in several complex matters.

In addition to the UAE litigation practice, Al Tamimi has one of the largest and leading the Dubai International Financial Centre (“DIFC”) Courts’ practice groups in the UAE led by Rita Jaballah. Al Tamimi was actively involved in the establishment of the DIFC Courts and we have been involved with the DIFC Courts’ Users’ Committee and DIFC Court Rules Sub-Committee. We have a number of solicitors and barristers qualified in other jurisdictions registered to appear before the DIFC Courts. To date we have been involved in some of the leading DIFC Court of First Instance and the DIFC Court of Appeal cases to come before the DIFC Courts.

The teams’ success is recognised by the leading legal directories with Chambers stating that our lawyers ‘excel at local law litigation’ and have commented that, ‘the sheer breath of the firms presence around the world ensures that clients can always find informed advise on local disputes’ Our clients rely on our global perspective and our in-depth knowledge and understanding of local and regional laws. Many firms have to outsource their local court work to independent UAE law firms at great expense and inconvenience to their clients, but that is not the case with Al Tamimi & Company. The [Arbitration](#) and [Litigation](#) teams work alongside each other on a day-to-day basis to provide comprehensive and effective support to our clients.

The Arbitration and Litigation teams enjoy a varied and interesting practice that deals with a wide range of problems. We believe it is a real privilege for us to learn about our clients' business and assist them in any way possible. Although every problem is uniquely different, we believe there is always a commercially pragmatic and effective solution, and we make sure we attempt to find it for the benefit of those instructing us.
